### **ABOUT WESTVIEW**

Westview Productions is an entertainment, energy, and immersive technology solutions firm headquartered in Denver, Colorado. We are a fun, dynamic team who have made it our mission to support those who are “out of the limelight.” From supplying a high school drama teacher with the right equipment to make their students shine, to helping a facilities team light a roller coaster and give guests the ride of their lives, we believe in giving our best to those who help create life’s most memorable experiences.

We believe in challenging every employee to be a lifelong learner. We believe in building strong relationships. We believe in maintaining a sustainable work/life balance and creating an environment that makes team members excited – to come to work each day.

### **POSITION SUMMARY**

The Controls Technician will be responsible for lighting system startups, commissioning and maintenance. Duties will include system energization, low voltage terminations, equipment installation and software programming. The successful candidate in this role will be technically proficient, a self-starter, and able to work well in situations where there is no immediate oversight. The individual in this role should be comfortable communicating with a wide variety of people, including contractors, facilities operators, and building owners.

### **RESPONSIBILITIES**

- Performs system energization, and ensures system is working appropriately
- Provides remote programming and support for customers
- Provides system training, and contractor installation training
- Prepares various site reports and documentation
- Repairs existing installations, as necessary
- Performs site surveys, review drawings before installs
- Build and maintain equipment racks and networking equipment
- Assists the installation division
- Assists with AutoCAD Work
- Assists in creation of system layouts and project takeoffs
- Assists in daily WVP operations as needed
- Maintains existing client relationships
- Travel to job sites both in and out of state
- Performs other project related tasks as they arise
- Maintain accurate as-built drawings
